Step 1 - Personal Details Edit		
Question 1.1	First Name *	Response Provided
	Devika	
Question 1.2	Preferred Name	Response Provided
	Devika	
Question 1.3	Last Name *	Response Provided
	Rajesh Gayathri	
Question 1.4	Gender *	Response Provided
	Female	

Question 1.5	Date of Birth *	Response Provided
	21-Sep-2010	
Question 1.6	Age *	Response Provided
	15	
Question 1.7	Mobile: *	Response Provided
	0480258982	
Question 1.8	Email Address *	Response Provided
	amritagayathri@gmail.com	
Question 1.9	City/Suburb/Town *	Response Provided
	Mckinnon	
Question 1.10	Postcode *	Response Provided
	3204	
Question 1.11	State *	Response Provided
	VIC	
Question 1.12	Are you an Australian Citizen? *	Response Provided
	No	
Question 1.13	Are you a permanent Australian resident? *	Response Provided
	Yes	
Question 1.14	What Visa subclass do you hold? *	Response Provided
	189	

Question 1.15	Have you applied for Australian Citizenship? *	Response Provided
	No	
Question 1.17	Are you under 18? *	Response Provided
	Yes	
Question 1.18	Note: For students under 18 years old, provide the following contact details:	No Response Provided (your response is optional)
Question 1.19	Parent/Guardian Name *	Response Provided
	Gayathri Nair	
Question 1.20	Email Address *	Response Provided
	amritagayathri@gmail.com	
Question 1.21	Contact Number *	Response Provided
	0498076569	

Status: Complete

Step 2 - Diversity and Inclusion Edit		
Question 2.1	Are you an Australian Aboriginal and/or Torres Strait Islander? *	Response Provided
	No	
Question 2.3	Are you from a culturally and linguistically diverse background? *	Response Provided
	Yes	

Question 2.4	Do you have illness, injury or disability that impacts on your daily life? *	Response Provided
	No	

Status: Complete

Step 3 - Educational Details Edit		
Question 3.1	Will you be a student enrolled in School, University, TAFE at the time of the proposed placement? *	Response Provided
	Yes	
Question 3.2	Name of School, University or TAFE *	Response Provided
	Mckinnon Secondary College	
Question 3.3	Note: Ensure school name is spelt correctly and written in full – (e.g. St John's College)	No Response Provided (your response is optional)
Question 3.4	Grade/Year Level *	Response Provided
	Year 10	
Question 3.5	Name of School Careers Advisor, Teacher or other School Staff Member *	Response Provided
	Delmar Zachest	
Question 3.6	Contact Number *	Response Provided
	0385209000	
Question 3.7	Email Address *	Response Provided
	zac@mckinnonsc.vic.edu.au	

Status: Complete

Step 4 - Source Edit		
Question 4.1	How did you find out about the Work Experience Program? *	Response Provided
	ADF Careers	
Question 4.4	Have you participated in any other Defence Youth Programs? *	Response Provided
	No	

Status: Complete

Step 5 - Application Questions Edit		
Question 5.1	Tips to complete the application: • Save often - the page will time out after 20 minutes of inactivity. Use the 'Save' button regularly so you don't lose your work • You can save your application and return to it at any time before the closing date. You can also edit a completed application before the deadline • Answer all questions and give detailed responses—treat this like a job application • Apply early! Applications may close sooner if we receive a lot of interest	No Response Provided (your response is optional)
Question 5.2	What STEM subjects/areas are of particular interest to you? How do you think this Defence STEM work experience will assist you in choosing a future career pathway? *	Response Provided
	I am particularly interested in STEM areas such as mathematics, biology, and chemistry, which I am currently studying. I enjoy mathematics because it helps me solve problems and understand patterns, while biology and chemistry help me learn how the human body and different substances work. These subjects are important because they connect to many real-life situations. Through the Defence STEM work experience, I am excited to see how these subjects are used in real-world settings. This placement will expose me to different STEM careers and show how people work together across different fields to solve national security problems. Touring research facilities and speaking with scientists and engineers will help me understand what their jobs involve and what skills I might need in the future. I am also interested in studying criminology, forensics, and psychology, as these areas use many STEM skills. For example, forensics uses biology and chemistry to analyse evidence, and psychology helps understand human behaviour. This experience will help me connect what I learn at school to real careers. It will guide me in choosing a future pathway that matches my interests and helps me build a meaningful career.	

Question 5.3	Limit your response to no more than 250 words.	No Response Provided (your response is optional)
Question 5.4	Are you currently involved in STEM related activities/projects within school, or outside school? If so, please outline the activities and your involvement. *	Response Provided
	Yes, I am involved in STEM-related activities within school. In class, I actively participate in problem-solving tasks, experiments, and practical investigations. For example, in biology and chemistry, I take part in laboratory experiments where I learn how to follow scientific methods, record results, and analyse findings. These activities help me build important skills like critical thinking, attention to detail, and teamwork. In mathematics, I regularly work on solving complex problems, which strengthens my logical thinking and ability to apply concepts to real-life situations. I enjoy challenging myself with different types of questions and improving my problem-solving skills. Outside the classroom, I also explore my interest in STEM by researching topics related to forensics, criminology, and psychology. I like learning how science is used to solve crimes, such as analysing evidence and understanding human behaviour. I did a presentation in the school on Digital Forensics. This helps me connect what I learn at school to real-world applications. Overall, these activities show my strong interest in STEM and my willingness to learn and develop skills that will support my future career goals.	
Question 5.5	Limit your response to no more than 250 words.	No Response Provided (your response is optional)

Question 5.6	1	What are your interest and hobbies (E.g. describe your participation in science, programs, organisations, volunteering, part time jobs, hobbies, additional schooling etc.).	Response Provided
		* I have a range of interests and hobbies that reflect my passion for learning, culture, and helping others. One of my main activities is volunteering as a dance teacher, where I teach Indian classical dance. Through this role, I help younger students learn new skills, build confidence, and appreciate cultural traditions. This has also improved my communication, patience, and leadership skills. I am also a member of the AMMA Ashram in Melbourne, which is run by the humanitarian leader Amma. At the ashram, I actively participate in community and social service activities. These programs focus on helping others and giving back to society, which I find very meaningful. My parents are also actively involved, which has encouraged me to take part regularly and stay committed to volunteering. In addition, I have had the opportunity to volunteer during a flood relief effort in India during the monsoon season. During this time, I helped support communities affected by the floods by assisting with activities that contributed to relief efforts. This experience taught me the importance of teamwork, empathy, and staying calm in difficult situations. Overall, my hobbies and activities show my interest in both personal development and community service. They have helped me build important life skills such as leadership, responsibility, and compassion.	
Question 5.7		Limit your response to no more than 250 words.	No Response Provided (your response is optional)

Status: Complete

Step 6 - Declaration Edit		
Question 6.1	I have read and understood the conditions of this placement referenced in the information pack *	Response Provided
	Yes	
Question 6.2	I am 18 years or over *	Response Provided
	No	
Question 6.3	I am under 18 years and I have *	Response Provided
	my parent or guardians permission to apply	

Question 6.4	I have permission from my School, University or TAFE to apply for this work experience placement *	Response Provided
	Yes	
Question 6.5	While participation in the Defence Work Experience Program does not guarantee future employment within Defence (including the Australian Defence Force (ADF)), additional material can be provided about careers available in the ADF, and the Department of Defence. By ticking this box, I agree for my name, age, gender and email address to be provided to ADF Careers (Defence Force Recruiting) and/or Defence People Group so that materials may be sent to me about Defence careers *	Response Provided
	Yes
